POST-CARBON CITIES AS DRIVERS FOR DECARBONISATION

MONDAY 7 DECEMBER FROM 12.15 TO 13.00

BLUE ZONE, EU PAVILION, HALL 2B, ROOM 'LUXEMBOURG'

Cities are at the forefront of the global carbon revolution, breaking established structures and creating new models for integrated systems. This side-event discusses how cities, serving as hubs of knowledge and learning, are essential catalysts in the global transformation to a post-carbon society.

A LIGHT LUNCH WILL BE PROVIDED

SPEAKER	AFFILIATION
Max Gruenig	Coordinator POCACITO and ELEEP, Ecologic Institute
Miriam Eisermann	Head of Communications & Policy at Energy Cities
Anne Jensen	Aarhus University
Glynda Bathan-Baterina	Deputy Executive Director at Clean Air Asia
Domenico Rossetti di Valdalbero	European Commission, DG Research and Innovation
Zoran Kordic	United Nations Development Programme in Croatia
Dr. Camilla Bausch, moderator	Director, Ecologic Institute

ABOUT POST-CARBON CITIES OF TOMORROW:

Post-Carbon Cities of Tomorrow (POCACITO) facilitates the transition of EU cities to a post-carbon society, including in the case study cities of Barcelona, Copenhagen, Malmö, Istanbul, Lisbon, Litoměřice, Milan, Turin, Rostock and Zagreb. More information at <http://pocacito.eu/>.

ABOUT ELEEP:

The Emerging Leaders in Environmental and Energy Policy Network (ELEEP) is a dynamic, forum for the exchange of ideas, policy solutions and best-practices for early and mid-career North American and European leaders working on environmental and energy issues. More at <http://eleep.eu/>.

The POCACITO project has received funding from the European Union's Seventh Framework Programme for research, technological development and demonstration under grant agreement no. 613286.

The ELEEP project has received funding from the European Union's Partnership Instrument under grant 136889/3 Transatlantic Energy and Climate Dialogue.
